Dear Hal,

It was nice to hear from you. I don't know when I'll be in D.C. to visit my son and his family. I was planning to go out for Xmas, but had a heart attack, so it may now be several months before I make the next trip out to there.

Don't worry about discussing the JFK murder or other politics. I was merely thinking of a brief social visit. It would be so nice to see you again after all these years.

I'm sure we've been living in fascism for these past 49 years. I'm terribly scared that the Establishment will take off their mask, and go open with it. I don't know what more I can do to help deflate them before it's too late. I know they are running terribly scared. It won't take much to puncture their bubble. But what will that be? And can we do so before they get terribly violent?

This recent "improvement" in the economy is illusory. It's based 95% on the expansion of credit, which means people will soon have to pull in their spending in order to pay off the

bills they've been running up. When that happens, the whole economy will collapse. This is so similar to the Dutch Tulip Bubble, the Mississippi Bubble, the South Seas Bubble, etc., that I'm amazed economists don't speak out now. I guess the problem is that they would lose their lucrative contracts with big corporations.

I think I own the book C. (I have so many books now that I lose track of them all.) But I have read it. I'm not familiar with the Sen. Hugo Black hearings, but will study them. Thanks for the tips. I've heard a lot about Case Open, and will have to buy a copy soon. I'm glad you're also doing more writing. I wish all of us "assassination buffs" would get everything down on paper. I often find others' little remarks to be enormously important. I'm getting down every thing I can remember.

I should tell you who the U.S. politician was - the one whose life I saved. It happened in 1966, and the CIA's intended victim was Vice President Humphrey. He was going on an official visit to the Dominican Republican for the inauguration

of that country's President, Balaguer.
Apparently the CIA never figured out I was the one who blocked them. I lived in fear that they would kill me - for 19 years - until my son turned 21. I then told him and have since told others and have spoken publicly about it.

I know now that Sen. Kefauver was murdered. And for years I have heard that Adlai Stevenson was also murdered by the CIA because they feared that he would become a rallying point for anti-war (Vietnam War) activists. He was, as you know, so fed up w. all that war that he had decided to resign as U.N. Ambassador. He put out the word that he would keep quiet about the Vietnam War, but that apparently wasn't good enough for the Establishment. They are so scared, I can't begin to tell you how fearful they are. Have you had any personal experiences where they've contacted you? And their voice is showing extreme fear? I don't want anyone to be afraid of me - and it took me a long time to figure out how fragile their system of covert fascism is & how

They all know it! Like they say, every bully is terribly frightened and easily handled when stood up to. This is esp. true of Nazi's!

I'm not going to worry any longer about the dangers to me personally. If they nail me, I'll be in good company with all those they have murdered over the last 50+ years - the Kennedys, Martin Luther King, Anne Frank, Esther Kefauver, etc.

Did you see the recent death of Labour Party Chief John Smith? I'm pretty sure it was yet another CIA killing. He was on the verge of leading a huge victory for Labour, and the U.S. Establishment could not allow England to leave as alone as the last de facto fascist state in the western ~~to~~ world. 3 years ago or whatever it was, the CIA (I believe) stole the British election for Conservatives, and they couldn't do the same thing again - so they decided on yet another political murder. There's no way in hell they can keep their fascism going forever. Fascism is so inherently unstable I'm surprised they could go 49 years with it. Hitler could only keep it going 12 years.

Well, Hal, best of wishes to you. One ⑤ of these days, when we have restored our democracy fully, we're going to put up a statue of you on The Mall in D.C. You're the grandfather of all of our work! You've done more for democracy than you'll ever imagine!

Sincerely,

Hal

P.S. Looks like I'll be out there for sure at Xmas time. I don't suppose you & your wife could be at my son's house in College Park for a French meal I'll be preparing. (I'm a French chef, too!)

That damn Possner. I've read part of his book "Hitler's Children." We've got to stop U.S. fascism <u>before</u> the economy collapses, and it will collapse (100% certainly!) any time. Believe it or not, I know the cause of the trouble. (I studied economics as an undergraduate.)

P.S.S. Do you know the names (first names) and addresses of the Olsen sons who live in Frederick? (He was the one the CIA gave LSD to & claimed he committed suicide in N.Y.C. in the 1950's.) I know Prof. Starr whose their forensic expert, but would like to speak to them directly.)

I've got absolute confirmation that Sen. Kefauver was murdered (just before JFK).

I've also got confirmation the CIA killed British Labour Party Chief John Smith, who was about to become Prime Minister. They substituted a "Bill Clinton-type" who will do their bidding. Do you know of anything re Clinton's involvement with Col. North & CIA at Mena, Arkansas airfield, or the bodies that showed up (supposedly) on railroad tracks in Arkansas?
